**LG 55EJ5C-B OLED****FEATURES & FUNCTIONS**

The new LG Wallpaper OLED display is paper thin, extremely light and impressed with incredible contrasts, vibrant colors and deep blacks.

The new LG Wallpaper OLED display can be installed without typical mounting accessories. You can mount it easy e.g. with a magnet on each wall. Furthermore it is easy to extend LG Wallpapers to brilliant video walls.

Due to the thinner design of the OLED display, there are fewer reflections. This reduces the sensitivity to extraneous effects. In addition, the LG 55EJ5C-B OLED Wallpaper Display always offers the same good contrast ratio from all viewing angles.

- Ultra-thin display with a depth of only 5 mm
- Perfect black level
- Perfect, brilliant colors
- Perfect image from any viewing angle
- Easy installation
