INTERACTIVE MULTITOUCH

PRODUKT DESCRIBTION

The Media Table Multi-Touch system was developed specifically for use in the catering industry as well as for POS & POI applications in Public Areas.

By the integrated network connectivity with real-time order function the Media Tablet Multitouch relieves the service staff in the restaurant area. About this, the Media Tablet Multitouch is perfect to use as an info-counter and for gaming applications in waiting areas of all kinds.

The brilliant full-HD display is protected by hardened special glass and the IP65 protection class against the ingress of dust and liquids and can thus be safely used in the hospitality sector and in public areas.

An integrated network compatible 60GB HDD computer handles all multimedia formats.

The Media Multitouch Table consists of a sleek and durable stainless steel aluminum construction and is approved for 24/7 continuous operation.
