MediaScreen
BILDKOMMUNIKATION GMBH

MonkeyBook 3.1
• Interactive Virtual Book •

The MediaScreen **MonkeyBook - Interactive Virtual Book** is an elegant touch presentation system with a curved projection surface in an authentic book design.

The **MonkeyBook - Interactive Virtual Book** captivates with its graceful form and the transparent design of the elegant acrylic body.

An integrated mini-PC and a high-precision camera tracking system enable intuitive user interactions, such as flipping through the virtual book pages, jumping directly to chapters and playing animations and videos.

FEATURES

- Transparent acrylic body
- Precise camera tracking system
- Integrated mini-PC
- Operation via touch gestures
- Brilliant high-contrast image
- Homogeneous projection surface
- Custom models on request, e.g. Install-Kit

The **MonkeyBook - Interactive Virtual Book** was designed for use as an information point at trade fairs and events, as a digital signage solution in stores and hotel lobbies, as a multimedia teaser in bookstores, as an authentically designed information system for delicate original books in museums, and as an elegant moderation and presentation desk.
